Skills

Web & Software Development, SEO, critical thinking

Work

Hip Brand Group / hipbrandgroup.com

Freelance Web Developer (remote)

I worked on several web development projects for Hip Brand Group, an agency specializing in the financial services and legal industries with clients such as BBVA Compass, Houston-based Cadence Bancorp, and Jones Walker law firm.

2013 – Present / Atlanta, GA, USA

UNIT9 / unit9.com

Junior Developer

I worked on several projects for brands like Tropicana, T-Mobile UK, and Captain Morgan. I implemented features such as a custom short URL scheme, responsive CSS3 designs that fit iPhones, iPads, and desktops, and a language switching system with PHP and HTTP cookies. I also did some experimental work with HTML5 Canvas-based technologies like Three.js and Paper.js. I most frequently utilized PHP, HTML5, CSS3, JavaScript, jQuery, Facebook Graph API, and the Facebook SDK.

Summer 2012 / London, UK

Cayenne Creative / cayennecreative.com

Web Development Intern

I worked on WordPress blogs, a Facebook app, and other custom solutions for their clients. Most notably developed betsybrowninc.com for Betsy Brown, an esteemed interior designer. I implemented my own custom interactive image gallery in JavaScript and an HTML5 audio track with graphics-based controls.

Summer 2011 / Birmingham, AL, USA

Kinetic Communications / kinetic.com

Technical Intern

Along with other tasks, I developed a custom Android app that utilizes web services to manage their company intranet—projects, clients, and contact search.

Summer 2010 / Birmingham, AL, USA

Instructional Assistant at Alice Film Festival

I gave students from elementary school through high school an introduction to programming using Java and Alice. With Alice, the students were enabled to create basic animated movies and video games—while at the same time learning fundamental programming concepts. Alice is an educational computer programming software created by researchers at Carnegie Mellon University.

The University of Alabama at Birmingham

July 2010 / Birmingham, AL, USA

Activities

Study Abroad

Georgia Tech Lorraine

Spring 2011 / Metz, France

Speaker at 2009 Mid-Southeast ACM Conference

Virtual Navigation of Multimedia Maps

Makes three-dimensional navigation of two-dimensional maps easy with photographs. Maps and accompanying navigation aids are compiled with a map editor into .map files. Available as a Java application or applet.

2009 / Gatlinburg, TN, USA
